A view to so much more than the Great Belt alone

THE ARTISTRY OF NATURE

Fjord&Bælt

Fjord&Bælt – discover the magic of the sea!

We offer professional, entertaining input during your much-needed break. Visit a world of unique experiences with sea animals. Visit us in Kerteminde or join us at the water's edge (wherever you choose) and enjoy an opportunity to get right up close to the sea and its wildlife in its natural environment. An introduction to the world below the surface of the Belt in an exciting, fun, social and rewarding way!

You then have 1–2 hours when we can offer activities such as: waders at the water's edge, snorkelling in wetsuits, lectures, exciting dissections and much more besides.

FunFirst – play and learning within organisations.

Job satisfaction, commitment, energy, play and creativity are the common thread through all our active employee events.

Whether the focus is on a positive experience for all or the team's on-going development, we employ an approvingly positive and humorous approach.

With music, play, games and other physical activities, we focus on what is happening in your business right now. We support training, learning and internal communication.

Use us for:

- creating energy and presence during the "dull" parts of the meeting or conference.
- musical teambuilding that reaches out to all corners of the organisation.
- workshops.
- supporting the management's communication to employees with fun, inspiring activities.
- events, large and small groups.

We have held more than 2,000 employee events for Danish and international companies, and we look forward to making your next event a 100% success.

INNOVATION

Dacapo

The theme is organisational and human resource development, and the method is theatre...

Dacapo takes the drama out of everyday life by dramatising it. They make complex issues more approachable and tangible by acting out the problems which come into play at the organisation. They combine various theatrical methods with dialogue in a process which activates the body, emotions and intellect. Dacapo is the ideal partner to place a different angle on your event or themes at the company. Use them for:

- Opening your conference
- All-day seminars
- Workshops
- Teambuilding with theatre
- Storytelling

Dacapo consists of consultants and theatre people in a groundbreaking interdisciplinary collaboration.

Kommunikations faBRIKKEN

Play, learning and a good laugh all come together when we engage employees in activities that support the exact topic of your meeting. The Talking Bricks concept is based on the LEGO universe and individually tailored to your event.

The theme might be:

- The communication flow at your company
- Value implementation
- Development/implementation of the company's strategies
- Collaboration and communication exercises
- Peptalks about change, body language or leadership

We generally work with anything to do with the development of people and organisations. Feel free to contact us – and we'll look at the options together.

PS: We can accommodate everyone, regardless of their age and level of fitness.

Boat trips on board beautiful old wooden ships

Maritimt Center Danmark cooperates with five beautiful, Funen-based wooden ships which together can accommodate 186 guests. A quiet bay or cove can always be found in the waters around Funen – whatever the weather – and all of the ships have a cosy lounge below deck. Guests can help the professional crew set the sails, or they can sit back on the deck and enjoy it when the wind takes hold. A host of options promise a great trip.

TEAMBUILDING

CoastZone

Teambuilding and the holding of events – activities on land, water and in the air. CoastZone creates the setting for an experience universe, where participants can challenge and develop themselves. Activities are put together which focus on success, allowing for all levels of ambition – regardless of whether you want a couple of hours' fun, need to plan a major motivational kick-off meeting or wish to develop employees and managers.

CONFERENCES

which promise to look after you

Last year, Nyborg Strand acquired one of Nyborg's school buildings, adjacent to our car park, between Christianlundsvej and the motorway. Long-term, it is intended to be used to extend our facilities, but right now, it is a good and sound investment in a building we can rent out until we need it. An excellent initiative by Skovbrynets børnehus has emerged; a private initiative with the establishment of a private nursery/kindergarten with long opening hours – 10 acute places are at our disposal, should you need it. Skovbrynets Børnehus is registered for 20 children aged 0–2 and 35 children aged 3–5.

TECHNOLOGY

AV Center

Focus is on the experience you wish to create – the technology is key...

Anything Nyborg Strand lacks in AV equipment, AV Center has.

AV Center offers the sale, rental, service and support of professional AV equipment. AV Center supplies all forms of audio visual equipment – video equipment, large-screen projectors, sound systems, lighting, information systems, video conferences, flat screens, boards, screens and much more besides...

For more information, visit www.avcenter.dk

What2Do

Make your next conference a big success with Conference-App and iPads from What2Do. Complete dialogue and survey tool in an iPad. In addition to programme and background information on sponsors and speakers, the solution serves as a tool for dialogue between the conference participants, organisers and presenters. It is possible to ask questions and conduct surveys during the conference. It provides a good sense of the mood and documents opinions on the various presentations.
